March 30, 2021

Dear Volodymyr Naumenko,

We are happy with your initiative and your offer. In fact, we've had a chance to work with some companies recently, and we've also had good results and good publications. Our significant subjects of study include the immune system, stress, antioxidants, and natural additives.

Your product was of great interest to us. We want to take a closer look at the product and the active ingredient. We will send you an email soon.

Best regards

Prof Dr Cenk Aydin
